II. Definition of the purposes of processing and determination of the legal basis

Einpark Office processes Personal Data to the extent in which you as a data subject provided it for the following purposes:

- **The purpose of the processing is to record and support communication** related to the sale and lease of office spaces/commercial units. The legal basis for processing the Personal Data is the legitimate interest of Einpark Office (Article 6(1)(f) of the GDPR).
- **The purpose is pre-contractual communication** in the event of a potential contract between the data subject and the Controller for the sale or lease of office spaces/commercial units. The processing of Personal Data is necessary for the performance of a contract to which the data subject is a party and/or to take steps at the request of the data subject prior to entering into a contract, including negotiating contract terms, drafting, communicating, and subsequently concluding the relevant contracts. The legal basis for processing the Personal Data necessary for the performance of the contract is Article 6(1)(b) of the GDPR.
- **Statistical purposes**, aimed at combining Personal Data with data from other clients to create reports that help improve the services provided by Einpark Office, while adhering to technical and organizational measures to ensure compliance with the principle of data minimization. The legal basis for processing Personal Data is further processing of Personal Data (Article 5(1)(b) in conjunction with Article 89(1) of the GDPR) – the outcome of such processing never results in personal data but rather aggregated/anonymized information (e.g., the number of customers or economic statistics).
- **The purpose of proving, claiming, and defending legal claims.** The legal basis for processing Personal Data is the legitimate interest of Einpark Office (Article 6 (1) (f) of the GDPR Regulation);

III. Categories of Data Subjects

Einpark Office processes Personal Data for the purposes outlined in Article II, related to clients and potential clients as data subjects. These are individuals for whom Einpark Office has recorded an interest in the offer of office spaces or commercial units within the Einpark Office project.

IV. Legitimate interests pursued by Einpark Office

The legitimate interest of Einpark Office lies in interests that are important and necessary for the proper conduct of its business activities, particularly in the form of recording and supporting communication related to the sale and lease of office spaces/commercial units which forms one of the business activities of Einpark Office. In this context, the data subject provides their Personal Data voluntarily, as they are requesting information/services from the Controller that they are interested in. The Controller does not undertake any additional activities to obtain Personal Data of the data subject; rather, the data subject contacts the Controller themselves for the purpose of obtaining additional information regarding the purchase and/or lease of office spaces/commercial units from the Controller and

its current offer. The Controller does not actively seek out anything but responds to the data subject's request and, if necessary, develops communication regarding the specific request of the data subject, which is essential for the realization of its core business activities. Without processing the provided Personal Data (voluntarily given by the data subject) for the purpose of recording and supporting communication related to the sale and lease of office spaces/commercial units, the Controller would be unable to receive and record requests from data subjects and subsequently respond to them, which would significantly limit its ability to sell/lease the spaces in the owned property, which is contrary to its interest and the fundamental framework of its main business activities.

The legitimate interest of Einpark Office, within the context of its interest in the proper conduct of business activities, also includes the proving, claiming, and defending legal claims that may arise from potential legal relationships (e.g., lease, sale) between the Controller and the data subject. In such cases, there may be a need to use the data and information provided by the data subject to Einpark Office during pre-contractual communication and negotiation of specific contract terms for the purpose of proving, claiming, and defending a right. The legal basis for processing Personal Data for the purposes stated in Article II is therefore the legitimate interest of Einpark Office, in accordance with the relevant article of the GDPR and the applicable provisions of the Data Protection Act, provided that in the given case, such interest of Einpark Office does not override the interests or fundamental rights and freedoms of the data subject that require the protection of personal data.

Right of the data subject to object to the processing of Personal Data

The data subject has the right to object, at any time and for reasons relating to their particular situation, to the processing of Personal Data concerning them, which is carried out based on the legal basis of the legitimate interest of the controller - Einpark Office, a. s.. Einpark Office, a. s. as the controller, may not further process the Personal Data unless it demonstrates legitimate grounds for the processing which override the interests, rights, and freedoms of the data subject, or for the proving, applying, or defending of legal claims.

V. Instruction on voluntary or mandatory provision of consent to processing

In the event that the data subject has expressed interest in being contacted by Einpark Office to schedule a meeting and present the options for office spaces/commercial units within the Einpark Office project, and for related communication and potential contract negotiation for the purchase/lease of office spaces/commercial units, the data subject is required to provide Einpark Office, as the Controller, with their Personal Data (at a minimum, their name, surname, email address, and telephone number) for the purpose of further communication. Otherwise, Einpark Office will not have the capability to reach out to the data subject, and the data subject will not obtain the requested information about the offer of commercial spaces/office units within the Einpark Office project. Providing such Personal Data for the purpose of scheduling a meeting or other forms of communication regarding the commercial spaces/office units in the Einpark Office project is entirely voluntary, and the decision not to provide this information should not have any significant repercussions for the data subject.

VI. Recipients or categories of recipients of Personal Data

It is assumed that the Personal Data processed on behalf of Einpark Office for the purposes outlined in Article II will also be provided to the following recipients:

(Hereinafter referred to as "**recipients**").
